LC-POWER

LC6600T V2.3 - Titan II

PRO-LINE Series

The PRO-LINE SERIES by LC-POWER offers the optimum price-performance ratio: thanks to its high-value 140mm fan, the LC6600T V2.3 - Titan II lets you experience a stress-free and super-silent work in your office as well as at home. Despite the low sound level, the power supply offers an excellent cooling capacity for your system thanks to its honeycomb styled ventilation grille on its back.

The power supply features all current connectors of the mid-range sector, it is suitable for upper multimedia applications as well as for the access to the gaming sector. Besides current mainboards you can connect several SATA and PATA hard disk drives respectively optical drives. A floppy disk drive can be added as well as powerful graphic cards with PCI-Express connector.

Including Active PFC (power factor correction for an efficient use of the spent energy) and all relevant safety circuitry.
